Morally Bankrupt Translations Presents:

Shiroi Gekkou

by Hanamizawa Qtarou

So, here's our first new project in some time. In case you didn't know, Qtarou is the guy responsible for bringing you such things as REC and Momoiro Sango. This one seems pretty enjoyable, and it's only two volumes long, so hopefully we can get it done relatively quickly and move on to something else. There's another new project coming along soon, so keep your eyes on our website or hang out with us in IRC.

Here's a couple of projects we're still looking for translators for:
[sorimura youji] cherry x cherry
[ditama bow] kibun kibun
[ditama bow] Fight Ippatsu! Juuden-chan!!
[hanamizawa Q-taro] Bellwood House
